

Q	Bitcell state
0	HRS (with high probability) LRS (with low probability)
1	LRS (with high probability) HRS (with low probability)

Time margins increase

$Q \text{ [2:0]}$	Bitcell state
000	HRS
001	HRS (with high probability) LRS (with low probability)
011	LRS (with high probability) HRS (with low probability)
111	LRS
